Dr. Volker Tegeder

Senior Associate

German Patent Attorney

European Patent Attorney

Physicist

Volker advises and supports clients on all aspects of prosecution and enforcement of patents and utility models related to physics, electrical engineering, semiconductor technology, fuel cell technology, computer-implemented inventions, autonomous driving and Industry 4.0. Volker has broad professional experience in industrial research and development of medical technology as well as fuel cells and semiconductor technology. Over the course of many years working as a patent professional with an international semiconductor corporation (including practical experience in US patent law), he has acquired extensive expertise in the creation and optimization of patent portfolios in new innovative business areas. In addition, he provides clients with strategic advice on matters relating to industrial property rights, including German law on employee inventions.
