Sebastian Odinius

Associate
European Patent Attorney
M.Sc. Energy Systems
UPC Representative
Aerospace Engineer

Sebastian looks after clients' German and European intellectual property rights concerns, with particular emphasis on patent prosecution and oppositions in the fields of mechanical engineering, electronics as well as mobility and energy generally. His professional expertise is based on many years spent working in in a wide range of technical fields, his activities as development engineer and as head of the patent department of a commercial company. His long-standing familiarity with company-internal processes and structures enables him to offer his clients both comprehensive and individual support.
