Konstantin is a patent attorney trainee at Maiwald. In this role, he assists firms in Germany and abroad in prosecuting and defending intellectual property rights in the fields of life science and biotechnology.

During his doctoral studies at the Biomedical Centre of the Ludwig-Maximilians-University of Munich, he researched the differentiation and plasticity of plasmacytoid dendritic cells mainly using flow cytometry and bioinformatic analysis of single-cell RNA sequencing data. He was also part of COVID-19 research projects at the BMC and is thus co-author of several scientific articles.

**CAREER**
