Mohammad Eisazadeh

German and European Patent Attorney Trainee
Graduate engineer in energy and automation technology

Mohammad Sadigh Eisazadeh is a patent attorney candidate at Maiwald. He studied electrical engineering, energy and automation technology with main focus on power electronics, smart grids and energy supply.

He has practical experience in the automotive and construction industries. He previously worked as technical project manager at the Bavarian state construction authority Munich I and supervised the reconstruction and refurbishment of Munich's New Pinakothek art museum. He also spent time as a development and test engineer in the energy management team of MAN, a leading international provider of commercial vehicles, where he tested energy-relevant functions on the test bench as well as on the truck.

His work presently focuses on the protection of intellectual property in the fields of electrical engineering, mobility and energy.
