

Dr. Isabel Stehle

Technical Expert

M.Sc. Molecular Mechanisms of Disease

Isabel Stehle is a patent attorney candidate at Maiwald with a focus on protection of intellectual property in the fields of molecular biology, biochemistry and biotechnology.

Over the course of several research internships, including at McGill University in Montréal, Canada, she acquired extensive knowledge in the fields of immunology, tumour biology and neurology. Her doctoral research focussed on the molecular mechanisms of CRB1-related hereditary retinal diseases using proteomics, mass spectrometry and retinal organoids from induced pluripotent stem cells.

Isabel Stehle is the author of several scientific publications in prestigious journals and has presented her research findings at national and international conferences.

CAREER

since 2024	Patent attorney trainee at Maiwald
2019 - 2024	Research assistant at the Research Institute of Ophthalmology, University Hospital Tübingen

EDUCATION

since 2024	Studies "Law for Patent Attorneys" at the Distance-Learning University of Hagen
2019 - 2024	Doctorate in the field of molecular and cellular neuroscience at the Eberhard Karls University of Tübingen
2017 - 2019	Master's degree program in Molecular Mechanisms of Disease at Radboud University Nijmegen, Netherlands
2014 - 2017	Bachelor's degree program in Medical Biology at Radboud University Nijmegen, Netherlands

PRACTICE AREAS

- Pharma & Biotech
- Patents & Utility Models

SERVICES

- Patent examination proceedings and portfolio management
- Application strategies and drafting of patent applications
- Opposition and nullity proceedings
- Freedom-to-operate- and validity opinions

LANGUAGES

- German
- Englisch
- Dutch
- French
