

Martina Boidol

Senior Associate

German Patent Attorney

European Patent Attorney

Physicist

After completing her physics studies, Ms Boidol worked in the R&D department of a large corporation in their mobile security and secure devices division. Since then, Ms Boidol has worked in leading IP law firms representing research institutes and companies of varying sizes and with different strategic focuses. She is mainly concerned with the fields of mechanical engineering and semiconductor technology, medical technology, information technology, and communication technology.

Ms Boidol is particularly experienced in drafting patent applications and patent prosecution. She has ample experience in conducting oral hearings and has successfully taken part in ex-parte proceedings including multi-jurisdictional proceedings.
