## Lars Weißbach

**Business Support**  
**Business Support**

Lars supports the Maiwald management in the operational running of the firm. He is responsible for organizing and preparing the program for routinely scheduled board meetings and for partners' workshops. He synchronizes content and decision-making memos with the respective project leaders, ensures that documentation is correct and in conformity with the firm's Articles of Association, prepares implementation and progress reports on agreed goals and assists the partners with regard to scheduling, prioritizing and resource planning. Lars also has responsibility for various other individual projects, such as internal coordination and implementation of the data protection regulations and various digital projects (including a digital mission statement).
