Dr. Paul Stahl

Patent Attorney Trainee
M.Sc. Biochemistry

Paul Stahl is a patent attorney trainee at Maiwald. His work mainly concerns protection of IP rights relating to biochemistry, biotechnology and pharmacy. He has special expertise in the fields of antibody and cancer research, bioconjugation, and high-throughput screening

While working on his doctorate at the Center for Medical Biotechnology in Essen, he developed cell-penetrating inhibitory nanobody conjugates and investigated their effects on cancer-relevant proteins. As a research scientist at Bayer Pharmaceuticals, he developed new methods for constructing focused, highly complex phage libraries.

He has presented his research at international conferences and published in peer-reviewed journals.

CAREER

since 2025	Patent attorney trainee at Maiwald
2023 - 2025	Research Scientist at Bayer Pharmaceuticals

EDUCATION

since 2025	Studying “Law for Patent Attorneys” at the Fern Universität Hagen
2019 - 2023	Doctorate in the field of molecular biology at the Center for Medical Biotechnology in Essen
2017 - 2019	Masters in Biochemistry at the Ruhr-Universität Bochum
2014 - 2017	Bachelors in Biochemie an der Ruhr-Universität Bochum

PRACTICE AREAS

- 제약 & 생명공학
- 특허 & 실용신안

SERVICES

- Patent grant procedures and portfolio management

- Planning filing strategies and drafting patent applications
- Preparing freedom to operate and validity opinions
- Opposition and nullity proceedings

RECOGNITIONS

- Scholarship (research grant) from the Center for Medical Biotechnology (ZMB) in the new special research area SFB1093

LANGUAGES

- German
- English
